

Dear Patients and Medical Professionals:

At Caldera Medical, patient safety has always been and will remain our number one priority.

Our Desara<sup>®</sup> and Vertessa<sup>®</sup> Lite mesh products are produced responsibly with a polypropylene resin that is manufactured and sourced exclusively in the United States.

We adhere to strict FDA and International quality standards and manufacturing practices in the manufacture of all our products, with strict vendor controls in place to ensure proper accountability throughout the supply chain.

Furthermore, Caldera Medical's products are extensively tested for human biocompatibility which is reviewed and cleared by the FDA, prior to commercialization.

We affirm with high confidence, that the quality system we employ is vigorous, and we act with the utmost integrity and the highest ethics.

On behalf of all Caldera Medical employees, we thank you for your confidence in our products as we work as a team towards our Mission of *Improving the Quality of Life for Women*. I welcome you to contact me directly with any feedback or questions you may have.

Warmest Regards,

A handwritten signature in black ink, appearing to read "J. Hubauer", with a long horizontal stroke extending to the right.

Jeffrey S. Hubauer  
Chief Operating Officer
