

## **Caldera Medical Achieves ISO 13485: 2003 Certification**

AGOURA HILLS, Calif., January 20, 2007 -- Caldera Medical, Inc., a leading manufacturer of specialized medical devices for the Gynecology, Urology, and Urogynecology markets, today announced that their facility in Agoura Hills, California, has been certified to the ISO 13485: 2003 standard. ISO 13485: 2003 is an internationally recognized standard developed to ensure that companies provide medical devices that consistently meet customer and regulatory requirements, and is currently the most stringent quality standard utilized by the medical device community.

The certification also recognizes conformance under the Canadian Medical Devices Conformity Assessment System (CMDCAS), a system developed by the Standards Council of Canada and Health Canada's Therapeutic Products Directorate.

In order to obtain certification, Caldera Medical demonstrated its ability to consistently meet strict quality management system requirements applicable to medical devices. Caldera Medical received its certification from BSi Management Systems, the world's leading quality management systems registrar.

"Receiving ISO 13485 certification is the culmination of a top-to-bottom quality system implementation," said Bryon L. Merade, Chief Executive Officer of Caldera Medical, adding, "This will enhance our ability to accelerate the global rollout of our product lines."
