Desara TV®
BLUE TRANSVAGINAL SLING

**CREATED FOR CONTROL**

**Unique Instrument**
Disposable with 5mm increase in instrument height for higher BMI women.

**Securement Arms**
Keeps sling and introducer intact during advancement and retraction resulting in added control.

**85° Curve**
Tighter trocar curve closely contours the pubic bone while maintaining distance from critical anatomy and avoid bottoming out.

**Two Trocar Diameters**
- **2.7mm**
  - Deflects 1 cm less than the 2.7mm competitor product.
- **3.0mm**
  - Deflects 2.4 cm less than the 2.7 mm competitor product.

**Enclosed Dilator Tips**
Smoother tissue passage and reduced tissue drag, resulting in the lowest insertion force when compared to competitors.

**DESIGNED FOR SIMPLIFIED DELIVERY**

**EZ Tab**
One piece easy to cut tab in highly visible color reduces risk of retained object.

**Two-Toned Sheath**
Designed with pink tint on one side to identify possible mesh twisting for simplified delivery.

Desara® TVez
BLUE TRANSVAGINAL SLING

**Trusted Polypropylene Mesh**
Type I large pore monofilament polypropylene designed with approximate pore size of 1000 microns to promote tissue ingrowth and allow for macrophage movement.

**Engineered to Lay Flat**
Desara mesh is engineered to lay flat when placed under tension and does not fray or curl. Offering stable and controlled support.

**Better Visibility**
Blue mesh allows for better physician visualization, compared to clear slings.
